Summary

Results-driven Senior Front-End Developer with 4+ years of experience specializing in MERN stack development. Successfully led and contributed to 12+ end-to-end projects, delivering responsive, high-performance web and mobile applications using React.js, React Native, Redux, and Node.js. Improved UI responsiveness and load times by **20–30%** through optimized component architecture and code refactoring. Collaborated closely with cross-functional teams to ensure seamless integration and on-time delivery, resulting in a 15% boost in user engagement and satisfaction. Eager to leverage technical expertise in a forward-thinking environment that values innovation and growth.

Experience

Senior Front-End Developer | Transviti   Riyadh, Saudi Arabia | Oct 2022 - Present

- Leading front-end development for a large-scale productivity tool, improving UI responsiveness and stability.
- Managing product lifecycle for TaskVare — from gathering requirements to planning, execution, and delivery.
- Facilitating collaboration across design, development, and QA teams to meet tight delivery deadlines.
- Conducting client meetings and live demos to gather actionable feedback and shape feature iterations.
- Overseeing production deployments, resolving high-priority issues, and ensuring minimal downtime.

Frontend Developer | Saasfa   Karachi, Pakistan | Feb 2022 - Oct 2022

- Contributed to the development of scalable web applications with a focus on responsiveness and usability.
- Integrated third-party services and maintained consistent communication with backend and QA teams.
- Participated in Agile ceremonies including sprint planning, reviews, and retrospectives.
- Delivered clean, maintainable code and optimized existing components for better performance.

MERN Stack Developer | Envision Techno   Karachi, Pakistan | August 2021 - Feb 2022

- Worked on full project cycles including UI implementation, authentication flows, and dynamic dashboards.
- Focused on improving front-end modularity and reusability across multiple projects.
- Collaborated with cross-functional teams to ensure alignment on business logic and system flows.
- Participated in code reviews and maintained consistent version control and task tracking practices.
